Education

B.Tech in Computer Science Engineering 2023 – 2027
BML Munjal University, Gurugram, Haryana
CGPA: 8.40
12th / Senior Secondary / Maharaja Agrasain Girls Senior Secondary School, Sirsa CBSE / 2023
Percentage: 82%
10th / Secondary / Maharaja Agrasain Girls Senior Secondary School, Sirsa CBSE / 2021
Percentage: 96.6%

Skills

Programming Languages: Java, HTML, CSS, JavaScript, Python
Databases & Tools: SQL, Git, Github, Figma, Hugging Face, Streamlit
Concepts: GENAI, OOPS, DBMS, DSA

Projects

STOCKPULSE – Stock Price Prediction System 2025— Demo — Playbook
Tech Stack: Python, yFinance API, FinBERT (Financial NLP), Web Scraping (BeautifulSoup)
• Collected Financial as well as Sentiment data of 7 Years(1 January 2019 to 30 December 2025)
• Implemented ARIMA, LSTM, Linear Regression, Decision Tree, and Gradient Boosting models.
LOAN DEFAULT PREDICTION SYSTEM 2025 — Demo — Playbook
Tech: Python, NumPy, Pandas, Machine Learning (Logistic Regression, SVM, Random Forest)
• Developed a machine learning model to predict company loan repayment using a large SBA dataset containing 899,000 records, applying Logistic Regression, SVM, Decision Tree, Random Forest, and XGBoost algorithms.
• Evaluated and compared model performance based on accuracy metrics, optimizing predictions through feature engineering and hyperparameter tuning.

Internships

Grant Thornton Bharat (*Summer Trainee*) June - July 2025
• Software testing and Flask-based backend development.
• ML Based Loan Scoring Prediction System.
USTART (*UI/UX Designer*) March - December 2025
• Redesigned and developed the UStart website, improving user flow and engagement.
• Improved website usability and navigation efficiency.

Achievements & Responsibilities

- 2x Hackathon Winner.
- Co-Author of a Research Article Published in Springer JOM.
- President - Youth Red Cross(YRC) Club.
- Chair - YoungIndians(YI), BMU.
